Features

1. USB 3.2 Gen2 Type-C interface (10Gbps)
2. Suitable for Mac, PC and Android mobile device
3. Suitable for USB and Thunderbolt™ 3 host interfaces
4. Supports one 2.5" SATA hard drive or solid-state drive(SSD)
5. Plug-and-play, no driver required
6. Hot-swappable disk tray with lock
7. LED indicator for disk status
8. With Red and Black colors
9. Aluminum chassis with high quality and fast heat dissipation

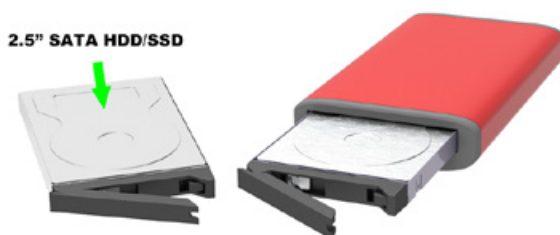

Aluminum chassis

MT1-B31BP has a sturdy and thick aluminum chassis design, and come with two colors (black/red). The aluminum chassis can withstand greater impact than plastic casing products, and it not only can provide faster heat dissipation and better protection for your disk. The faster heat dissipation also can keep your disk running normally at all times, even after long time use.

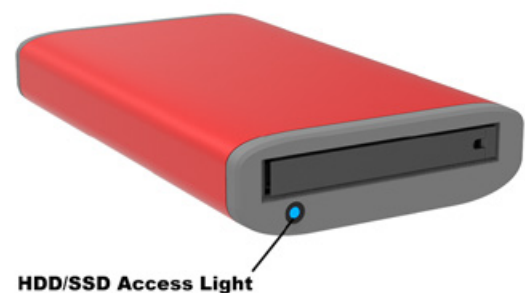

Screwless, Removable and Hot-swappable 2.5" disk tray

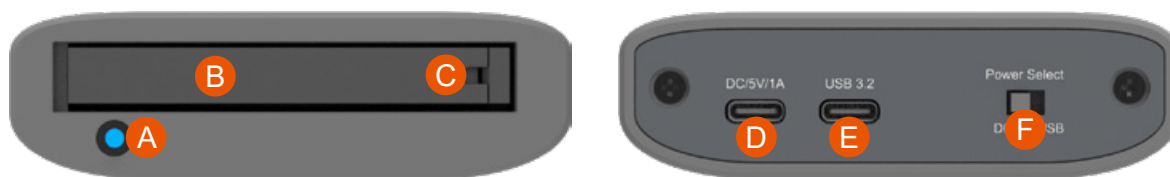

MT1-B31BP is equipped with an easy to install tray, can support the newest 2.5" SATA HDD/SSD, and has the sturdy aluminum housing to protect your hard disk. The MT1-B31BP combines the advantages of convenience and plug and play, can replace the tray easily and protect the hard disk securely placed and not be easily pulled out.

LED indicator for disk status

MT1-B31BP provides the LED indicator for disk status. It will flash and change when the user transmits data, and that allow users to check the disk access status quickly.
